

# Package ‘lavaan.shiny’

May 8, 2026

**Type** Package

**Title** Latent Variable Analysis with Shiny

**Version** 1.2

**Date** 2017-04-06

**Author** W. Kyle Hamilton <kyle.hamilton@gmail.com>

**Maintainer** W. Kyle Hamilton <kyle.hamilton@gmail.com>

**Description** Interactive shiny application for working with different kinds of latent variable analysis, with the 'lavaan' package. Graphical output for models are provided and different estimators are supported.

**License** GPL-3

**URL** <https://github.com/kylehamilton/lavaan.shiny>

**Depends** R (>= 3.0.3)

**Imports** shiny, shinyAce, psych, lavaan, semPlot

**LazyData** TRUE

**RoxygenNote** 5.0.1

**NeedsCompilation** no

**Repository** CRAN

**Date/Publication** 2017-04-07 06:05:09 UTC

`lavaan.shiny`*Launch lavaan.shiny User Interface*

---

**Description**

`lavaan.shiny()` loads interactive user interface built using R shiny.

**Usage**

```
lavaan.shiny()
```

**Details**

Start `lavaan.shiny`

The interactive user interface is to provide an easy way for people who are learning how to work with the `lavaan` package and/or are not comfortable with the R command line system. Includes example data for testing out a few example analysis.

**Value**

Nothing

**Examples**

```
## Not run:  
library(shiny)  
lavaan.shiny()  
  
## End(Not run)
```
